

Life is short

C / G / Am / F /

Life is short; you try just a little to be
playin' your part, you can't hide the riddle of the
things that you see. You want to be sitting on the
top of the world, but no one is fooled by you at all.

You walk through the door, and out to the street to find that
everyone else is feeling the same as you but
nothing you see is really the way things are and
everyone else is trying to see reality.

CHORUS

You turn upside down, and spin all around until the
me that you are is just like the me that we all see.

Life is short; you can't find the answers without
playin' your part; you can't find the love you seek until
you can start remembering who you are and
be happy with the me that you really want to be.

CHORUS (2x)
